Response to Applicants Arguments/Amendments

Applicants amendment filed on 11/13/12007 have been entered and made of record..
Applicants amendments were sufficient to overcome the prior art and applicants arguments are there fore persuasive.

Reasons for Allowance

Claims 6-8 as amended are allowable for the following reasons. Applicants amended Claim 6 includes the indexing minimum coded units of a JPEG image "on as needed basis". As claimed when "receiving a request" for a MCU claim 6 requires entropy decoding and indexing up to "but without going beyond" the MCU. This means not all the MCU's will be indexed at once but only those up to and including MCU's requested. This differs from the prior art which indexes all of the MCU's at once when requested. Therefore claim 6 requires subject matter not included in the prior art of record and is therefore allowable
